23 February 1959

MEMORANDUM FOR: Chief, Technical Services Staff

ATTENTION : [REDACTED] 25X1A9a

SUBJECT : Project [REDACTED] 25X1A2g

REFERENCE : Memorandum for DD/P, dated 16 February 1959,
same subject ([REDACTED]-0009)
25X1A2g

1. I appreciated the reference which is a useful basis for follow up.

25X1A2g

2. I assume that you will let me know in due time when you have
worked out with OSI the outline and performance specifications of a proposed
operational [REDACTED] system. At that time we can discuss a choice of a con-
tractor. I lean heavily in the direction of [REDACTED] partly because of a possibility
of a working relationship with [REDACTED] I would appreciate if [REDACTED] could
communicate with [REDACTED] in the near future and stimulate him to
rather vigorous action in the recruitment of one or two analysts who could help
with the exploitation of [REDACTED] This is the kind of work for
which, in my opinion, [REDACTED] is well suited if they will stir themselves to do any
necessary recruitment promptly. If [REDACTED] encounters reluctance or
lethargy at [REDACTED] I would like to be advised so I can discuss this matter with
[REDACTED] (I would remind TSS that a secure communications link to [REDACTED]
is available through the DPD Signal Center.)
